Georgia Power Rebates Through Hoots Home Performance*

Energy Efficiency Home Improvement Rebates

Why Customers Choose Home Performance with ENERGY STAR®

Savings and Peace of Mind

Save on energy costs and increase the comfort, safety and durability of your most important investment - your home.

Specially Trained and Certified Contractors

The Hoots Group, certified by the [Building Performance Institute](#) (BPI) will work with you to identify sources of wasted energy and comfort problems throughout your home.

Comprehensive Assessment, Recommendations and Cost Analysis

By using the "whole house approach," our team is able to give you a comprehensive assessment that includes recommendations and cost analysis for: heating/cooling equipment, insulation levels, air infiltration, windows/doors, and lighting.

Financial Incentives

Financial incentives are available to help offset the cost of the assessment and the improvements. All incentives are subjected to specific improvements meeting pre-determined Test-out requirements (post diagnostic testing). Please discuss with your contractor for more details.
